

CONDENSE

Conference on Nonproliferation
and Dual-use awareNESS

29-30 August 2019, Ypres, Belgium

Call for Participation

CONDENSE 2019 invites you to submit a proposal and join this event that brings together scientists and policy experts to explore use and misuse of emerging technologies in an invitation event.

What do I need?

- active interest in debating societal implications in modern science with fellow scientists & policy experts.
- submit a **200 word proposal** for a short presentation that focuses on your work and potential societal implications that arise from it by **25th April 2019**.
- give a condensed 6-minute short, snappy and sharp presentation on your field of expertise and its societal implications.

What is CONDENSE?

A great opportunity to network, share experience, and find solutions to issues and will help to identify new challenges in the field and build networks with other researchers.

CONDENSE is building a unique collaborative environment where participants participate! To have a conversation together and think widely and deeply about societal issues facing cutting science.

Why Belgium?

The venue of the conference is in close proximity to the site of the first large scale use of chemical weapons, illustrating the pertinence of societal implications of scientific work.
