

Re: 'Provision of COVID19 Diagnostics Quality Management Training'
Date of Clarification: June 4, 2021
Clarification: No.1

The International Science and Technology Center has received the following questions and requests for clarification related to the Tender Notice above, and in this connection provides the followings answers:

	Question	Response
1	It is mandatory to use the E-learning platform provided by ISTC?	No. The bidder can use whatever online training / E-learning platform(s) they deem useful/necessary.
2	Please, could you provide more clarification regarding the template documents that might be created for each of the modules described in the Tor?	<p>There are no template documents currently available, but the format of documents will be discussed with the contractor as part of the contract negotiations.</p> <p>However, each training document should acknowledge the funding source (in this case the EU/ISTC), and follow their visibility requirements. Additionally, a disclaimer should be included, which states that information in the document is of the opinion contractor and does not necessarily reflect the opinion of the funder, and hence the funder bears no liability for the information contained in the document.</p>
